Adventure Tourism Innovative Partnerships (AVIP) 2018 has developed 18 sector specific modules to enhance the capacity of European Adventure Tourism businesses and students so they can adapt and meet changing industry needs. We asked you (businesses, education and students) in January 2018 what you needed to be included in the modules and you told us. We did what you asked us and invite you to come and check the results.

**Partners are welcome to bring their promotional materials and banners.**
